

If you intend to allow the Sinclair Corporation to air this obviously partisan program days before the election, than it is your DUTY as a Communications Commission in a Democratic country to give equal time to the alternative view. If you are going to allow "Stolen Honor" to be broadcast than you must insist on the broadcast of "Going Upriver". They both should be shown in the same time frame BEFORE the election. If you do not carry out your function as a guardian of fair communication than you are contributing to the downfall of democracy in this country.
